## New AMAL Carburetter Prices

Pre Monobloc Type 76 \$ 89:

From £282.00

Pre Monobloc Type 276 \$ 289:

From £270.00

Monobloc® Type 376 \$ 389:

From £160.80

Mk1 Concentric®:

600 \$ 900 Series: £107.99

600 \$ 900 Series Premier: £131.99

Mk2 Concentric® : From £106.80

Smoothbore : £180.00

GP Series : £414.00

TT Series : £390.00

All prices shown include VAT @ 20%

The technical information contained in this catalogue supersedes any previous information published or authorised on this subject by The AMAL Carburetter Company or Burlen Fuel Systems Limited. All information given is up-to-date and accurate to the best of our knowledge. We can accept no liability for any loss, damage or injury caused by errors or omissions in this catalogue.

Purchasers are advised that the specification details set out in this catalogue apply to a range of units and not to any particular unit. The Amal Carburetter Company reserve the right to vary their specifications with or without notice, and at such times and in such manner as they think fit. Major as well as minor changes may be involved in accordance with the Company's policy of constant product improvement.

When service parts are required it is essential that only genuine AMAL replacements are used. The Company can accept no responsibility for damage or injury caused by use of inferior service parts.

The AMAL Carburetter Company is a division of Burlen Fuel Systems Limited

Registered in England and Wales Registration Number: 2005550

Registered office:  
As above address.

VAT Number:  
GB 423 5232 84

All orders and any other communication should be sent to the contacts listed above. Written, telephoned, emailed or faxed orders will be dealt with promptly by our skilled parts staff, normally on a same day basis. Every effort will be made to fulfil orders promptly. Where parts are not available from stock and where there is likely to be any significant delay, the customer will be advised as appropriate. Speedy execution of parts orders will be assisted if full details of the vehicle type, year, engine size, carburetter type and spec etc, are available at the time of order.

Alternatively customers may call in person. Burlen Fuel Systems can be found on the Salisbury to Amesbury road (A345), about a mile north of Salisbury city centre. The Company's hours of business are 8:45am to 5:15pm, Monday to Thursday, and 8:45am to 4:30pm, Friday. Closed for business Saturdays and Sundays.

# The History of AMAL

## Origins

The company and trademark "AMAL" was formed from the 'amalgamation' of several other organisations (notably Binks, Brown & Barlow and Amac) in the years immediately following the First World War in order to manufacture and market carburetters and associated products. In the 1960's AMAL became part of the IMI group of industries before being sold in 1993 to Grosvenor Works Ltd in North London: a family run business specialising in supplying components to various fuel systems companies. Grosvenor then began revitalising the AMAL product range by commencing a programme of re-introducing some of the more popular ranges of obsolete product.

In 2003 the business was sold yet again, this time to the current manufacturers, Burlen Fuel Systems Ltd. Burlen Fuel Systems Ltd, who also produce SU, Solex and Zenith products, have over recent years gained a high reputation for continuing to produce carburetters and spares keeping a vast range of British classic vehicles alive. Burlen Fuel Systems have continued to invest in AMAL product by further increasing the range of popular obsolete products back into production. The 'AMAL' and 'AMAC' trademarks have been in constant use since their initial conception and now cover a range of products including carburetters (principally, but not exclusively, for motorcycle engines), controls (brake and clutch levers, cables, etc.), fuel lift pumps, gas jets and burner devices as well as gas safety valves.

AMAL component and assembly part numbering sequences usually enables the end product type and design age to be determined, i.e. one of the earliest of the carburettor types are the 4, 5 & 6 series; these are generally assembled from piece parts that have the same initial number (for example 4/035 where 4 denotes the carburettor for which the part was initially designed / used and the /035 designates the part itself.) In principle, this numbering system has been used for all AMAL product and piece parts over the years.

## AMAL Carburetters, Spares and Controls

The bulk of the carburetters produced under the AMAL mark have been of the type generally known as 'slide' carburetters, where the 'choke' or 'venturi' area of the carburettor is varied by the position of a 'slide', which also serves as the throttle for air control. Over the years, some fixed choke 'butterfly' throttle plate type carburetters designs have been produced, but these have not been generally accepted for motorcycle engine use and have tended to be used on agricultural, marine or static applications. The product range currently produced and marketed by the AMAL Carburettor Company is listed later, together with some of the obsolete products that are of similar design / construction.

## Pilot Jet

Used for idle and off-idling fuel control. The adjustment of fuel flow is by means of variation in the amount of air bleeding through that is allowed into the circuitry; this in turn then allows variation in the metering signal (vacuum) that is applied to the fuel jets.

There are usually two outlets into the main carburettor bore from the pilot circuit; one sited downstream (engine side) of the throttle valve and one sited just upstream of the downstream edge of the throttle valve, such that when the throttle valve is in an 'idling' position, the downstream outlet hole (pilot outlet hole) is subject to inlet manifold vacuum and therefore feeds fuel and air into the main air stream. In this throttle position, the upstream outlet hole (bypass drilling) acts as an air bleed into the pilot circuitry and its effect is dependent upon the size of the bypass drilling and the pressure drop across the throttle edge. When the throttle is opened marginally, the vacuum acting across the face of the bypass outlet hole increases and gradually the bypass flow will change from bleeding air into the pilot circuit to feeding fuel into the air stream additionally to that from the pilot hole. As the throttle valve is further opened, more air flows into the engine, the inlet manifold vacuum falls (inlet manifold pressure increase towards atmospheric) and the flow for the pilot circuitry reduces.

## Throttle Valve Cutaway

The forward facing (air inlet edge) edge of the throttle valve is cutaway at an angle and the amount of this cutaway influences the vacuum acting on the main circuit spray tube (i.e. the main circuit outlet into the main air stream). On most of the more modern AMAL carburetters, the amount of throttle valve cutaway is designated in 1/16" for each full increment. The amount of throttle valve cutaway has a great influence on fuelling in the area of initial main circuitry fuel feeding (i.e. off-idle) and up to around 1/4 to 1/2 throttle opening.

## Needle Jet and Throttle Needle Combination

The needle jet is located at the outlet of the main circuitry, at the point of discharge into the main air stream. The throttle needle is attached to the throttle slide and moves up and down within the needle jet orifice in accord with movement of the slide. The throttle needle has a parallel section at its lower end (main jet direction). The parallel section is within the metering section of the needle jet under idle and off-idle running conditions and the tapering section moves into the needle jet orifice as the throttle opens beyond the "off-idling" running. This taper within a fixed diameter orifice provides a variable section orifice, which in turn gives rise to a varying vacuum onto the main jet itself. At full throttle operation, the needle is out of (or almost out of) the needle jet and there is no restriction to flow from the main jet and into the air stream.

The needle has a number of locating grooves at the throttle valve attachment end, which permit the user to adjust the needle "richer" and "weaker" than the mid position. The needle jet design is different for 2 stroke or 4 stroke due to their different fuelling requirements. A 2 stroke needle jet has its metering section at the upper (discharge) end, whilst in a 4 stroke jet, the metering section is at the lower (main jet) end. Most 4 stroke needle jets also have emulsion air drillings located in the needle jet above the metering section.

## Main Jet

The same design of main jet is used on all of the current carburetter ranges, excluding the 276 and 400 series. The main jet determines the maximum air flow amount of fuel that can be drawn into the engine and is therefore selected early in the carburetter tuning sequence to meet the engine's maximum demand.

## Brake & Clutch Levers

Used for handlebar mounting and manufactured in cast aluminium, finished in black enamel or polished casting. Early examples of the AMAL lever range were pressed steel construction and a demand for this type of lever still exists as replacements on the vintage motorcycles.

## Cable Control Levers

A variety of bar mounted control levers for cable controlled applications (lawnmowers, marine outboard engines, agricultural equipment, etc.) are available.

## Twist Grips

Used for throttle control. Available in a range of materials and finishes.

## Fuel Lift Pumps for Two Stroke Engines

These are diaphragm type pumps arranged to pump fuel through the action of the crankcase pressure variations.

# **Ordering Direct**

## **Ordering Direct**

Written orders can be sent directly to the following address:

**The AMAL Carburetter Company, Spitfire House, Castle Road, Salisbury, Wiltshire, SP1 3SB.**

You can place an order by telephone with our sales team on 00 44 (0) 1722 412500, fax your order through to us on 00 44 (0) 1722 334221, email your order to us at [info@amalcarb.co.uk](mailto:info@amalcarb.co.uk) or place your order online through our web site at [www.amalcarb.co.uk](http://www.amalcarb.co.uk).

## **Payment**

Payment must be made for all orders prior to despatch unless other arrangements have been made. All goods remain the property of The AMAL Carburetter Company until paid for in full. Should any part give cause for complaint, please advise us immediately with full details of usage together with invoice number and date of purchase, when we will be pleased to investigate. Placement of an order will be taken as acceptance of our full Terms and Conditions.

Our full terms and conditions are printed on all of our invoices and are readily available upon request.

## **Bank Details**

Account Name:	Burlen Fuel Systems Ltd
Bank Branch:	Handelsbanken, Suite 1, Ground Floor, Richmond House, Richmond Hill, Bournemouth, BH2 6EZ
Account No:	10621111
Sorting code:	40-51-62

## **Carriage Charges**

Every effort will be made to minimise packing and carriage costs, while maintaining efficient and safe delivery. We use a range of carriers depending on order size and weight. Higher value items are sent using a trackable service for security. (Please enquire for the current rates.)

## **Export**

We are pleased to be able to offer a complete export service to most destinations with full documentation. Quotations can be given for despatch by air or sea against your specific enquiry.

## **Trade Descriptions Act**

Every effort has been made to comply with the requirements of this act. Please notify us of any discrepancies.

## **Guarantee**

Where goods were not supplied directly by us, returns should initially be referred to your supplier, but should you not receive satisfaction please return the product to us, untampered with as supplied, together with a copy of the purchase invoice and the name and address of the supplier. If ordered directly, please telephone customer services on 00 44 (0) 1722 412500.

# AMAL Pre Monobloc® Series Carburetter

Pre Monobloc®

Type 76 & 89:

From £282.00

Pre Monobloc®

Type 276 & 289:

From £270.00

Early Type Repair  
Kits Now Available.

Types: 4, 74, 274, 5,  
75, 275, 6, 76 & 29

See page 126!

# AMAL Pre Monobloc® Carburetter - Information

The 276 and 289 types currently in production are of the type introduced in 1940 in an attempt to improve the carburetter's durability in dusty and dirty operating environments.

These types of carburetter are, in virtually all aspects, identical to the 76 and 89 versions (also in production), except that the main emulsion air is drawn from inside the air intake (air filter) whilst the earlier 76 and 89 carburetters use unfiltered air. Even earlier versions of this carburetter were the type 6 and 29 that were of bronze construction. In the same design range, but not in production, were the 4 and 5 types with smaller bore sizes. These were replaced with the 74 and 75 and then later by 274 and 275 carburetter types. We can usually offer an acceptable alternative using our current production carbs.

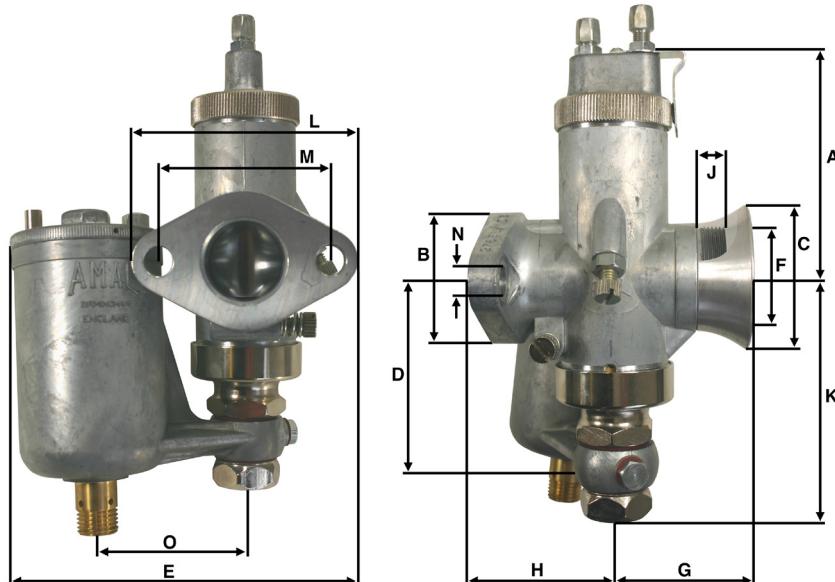

The float chambers for all early carburetters (including these types) were separate assemblies from the carburetter body and were generally attached by a holding bolt under the main jet. Depending on the physical size and arrangement, these separate float chambers were designated types 1, 2, 3 and 4 in the main carburetter specification numbering and were assembled from components generally in the 64/ component part number sequence. Types 1 and 2 are currently available for the 276 and 289 ranges.

## Pre Monobloc Carburetter Specification Identification -

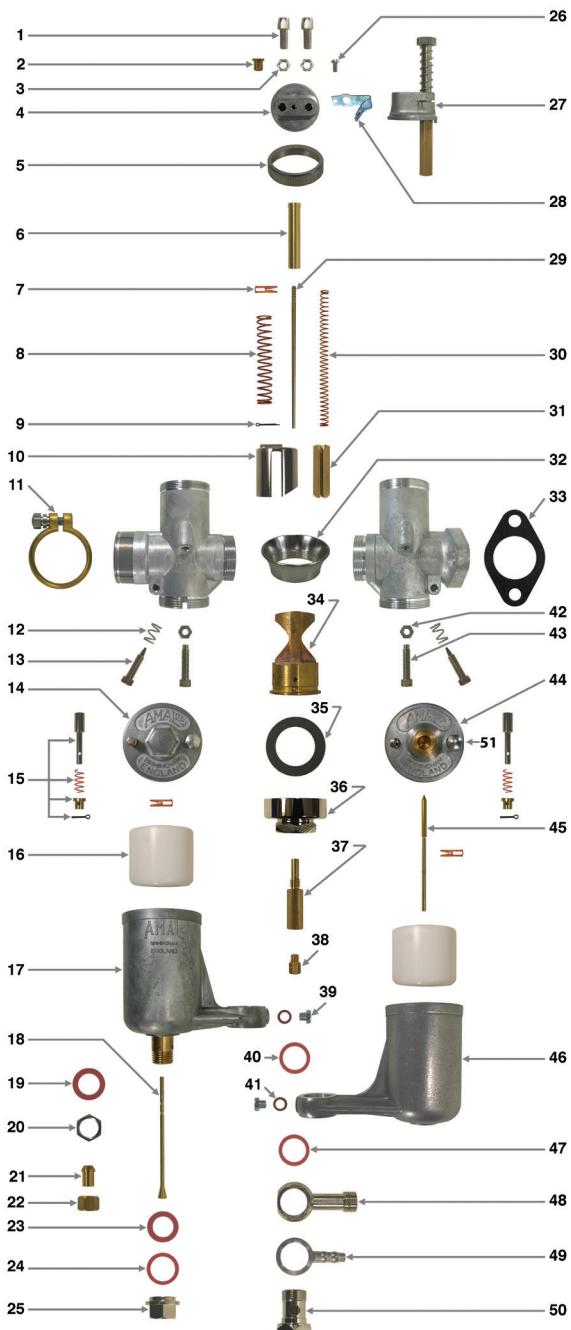

Pre Monobloc Carburetter type numbers 276 and 289 are followed by a designation to identify its application. Carburetters without internal main emulsion air are '76' and '89' series.

## Carburetter Dimensions -

## Parts List :

- 1:** Cable Adjuster - 4/035 - £1.26
- 2:** Ferrule - 6/132A - £1.51
- 3:** Cable Adjuster Nut - 5/077 - £1.12
- 4:** Mixing Chamber Top -  
6/032 - To fit 2 Adjusters - £14.62  
6/423 - To fit 1 Adjuster & 1 Ferrule - £16.90  
6/403 - To fit 2 Ferrules - £15.98
- 5:** Mixing Chamber Top Ring - 6/031 - £7.80
- 6:** Air Valve Guide - 6/047 - £2.32
- 7:** Needle Clip - 4/230 - £1.78  
*Contained in Needle & Clip Kit - RKC/526 - £10.20*
- 8:** Throttle Valve Spring -  
Short - 4/037 - £4.19  
Long - 4/263 - £1.75
- 9:** Cotter Pin - 4/060 - £0.22
- 10:** Throttle Valve - Variable -  
No. 2 to No. 6 Cutaway - 6/052 - £45.25  
No. 3 to No. 5 Cutaway -  
Phosphor Bronze - 6/052PB
- 11:** Spigot Clip Kit - RKC/530 - £19.03
- 12:** Pilot Screw Spring - 4/148 - £1.74  
*Contained in Throttle & Pilot Screw Kit - RKC/529 - £8.96*
- 13:** Pilot Screw - 13/129 - £3.14 - *Contained in Throttle & Pilot Screw Kit - RKC/529 - £8.96*
- 14:** Float Chamber Top - Bottom Feed Type -  
14/208A - £24.60
- 15:** Tickler Kit - RK276/1 - £4.12
- 16:** Float - 14/304P  
*Use Top Feed Float Kit - RKC/527 - £25.24  
or Bottom Feed Float Kit - RKC/525 - £24.00*
- 17:** Float Chamber - Variable - see page 129
- 18:** Float Chamber Needle - Bottom Feed  
Type - 14/024 - £8.74 - *Contained in  
Bottom Feed Float Kit - RKC/525 - £24.00*
- 19:** Washer - 14/175 - £0.80  
*Contained in Gasket / Washer Kit - RK6/1*
- 20:** Seating Locknut - 14/178 - £1.29
- 21:** Petrol Union - 14/026  
*Use Petrol Union Kit - RKC/528 - £7.64*
- 22:** Petrol Union Nut - 14/042  
*Use Petrol Union Kit - RKC/528 - £7.64*
- 23:** Washer - 14/175 - £0.82  
*Contained in Gasket / Washer Kit - RK6/1 - £4.14*
- 24:** Washer - 2622/066 - £0.85  
*Contained in Gasket / Washer Kit - RK6/1 - £4.14*
- 25:** Banjo Nut - 14/036 - £6.23
- 26:** Spring Retaining Screw - 4/241 - £0.42
- 27:** Mixing Chamber Top -  
30/318 - Plunger Operated Type - £20.04
- 28:** Mixing Chamber Cap Spring -  
4/235 - Adjuster Type - £2.52  
4/276 - Ferrule Type - £4.20
- 29:** Needle - 6/065  
*Needle & Clip Kit - RKC/526 - £10.20*
- 30:** Air Valve Spring - 4/046 - £0.90
- 31:** Air Valve - 6/045 - £14.81
- 32:** Air Intake Tube - 6/038 - £9.50
- 33:** Gasket - 622/500 - £1.51  
*Contained in Gasket Kit - RK6/1 - £4.26*
- 34:** Jet Block - Please contact us for more  
information
- 35:** Washer - 6/040 - £0.86  
*Contained in Gasket Kit - RK6/1 - £4.14*
- 36:** Mixing Chamber Union Nut -  
6/033 - Short - £10.12  
6/062 - Long - £19.20
- 37:** Needle Jet - Variable  
4/061-(Size)105-109 - £6.97
- 38:** Main Jet - Variable  
4/042-(Size)15-700 - £4.26
- 39:** Plug Screw - 64/353 - £2.26
- 40:** Washer - 4/053 - £0.82  
*Contained in Gasket Kit - RK6/1 - £4.14*
- 41:** Washer - 23/110 - £0.81  
*Contained in Gasket / Washer Kit - RK6/1 - £4.14*
- 42:** Throttle Screw Locknut - 16/010 - £1.93  
*Contained in Throttle & Pilot Screw Kit -  
RKC/529 - £8.78*
- 43:** Throttle Screw - 4/063 - £4.96 *Contained in  
Throttle & Pilot Screw Kit - RKC/529 - £8.96*
- 44:** Float Chamber Top - Top Feed Type -  
14/297P - £30.90
- 45:** Float Chamber Needle - Top Feed Type -  
14/343P - £8.74  
*Contained in Top Feed Float Kit - RKC/527 -  
£25.24*
- 46:** Float Chamber - Variable - see page 129
- 47:** Washer - 4/053 - £0.82  
*Contained in Gasket / Washer Kit - RK6/1 - £4.14*
- 48:** Single Threaded Banjo - 14/035 - £9.59
- 49:** Push On Banjo - 14/345 - £7.46  
Double Push On Banjo - 14/419 - £11.94  
Double 55 degree banjo - AMC102 - £18.84
- 50:** Float Chamber Holding Bolt - 4/043 - £7.80
- 51:** Float chamber cap locking screw -  
14/021 - £3.72

## Associated Kits :

Gasket / Washer Kit - RK6/1 - £4.14  
Kit Contains item numbers: 23,  
24 (x 2), 33, 35, 40 (x 2), 41 &  
47 (x 2)

Tickler Kit - RK276/1 - £4.12  
Kit Contains item numbers: 15

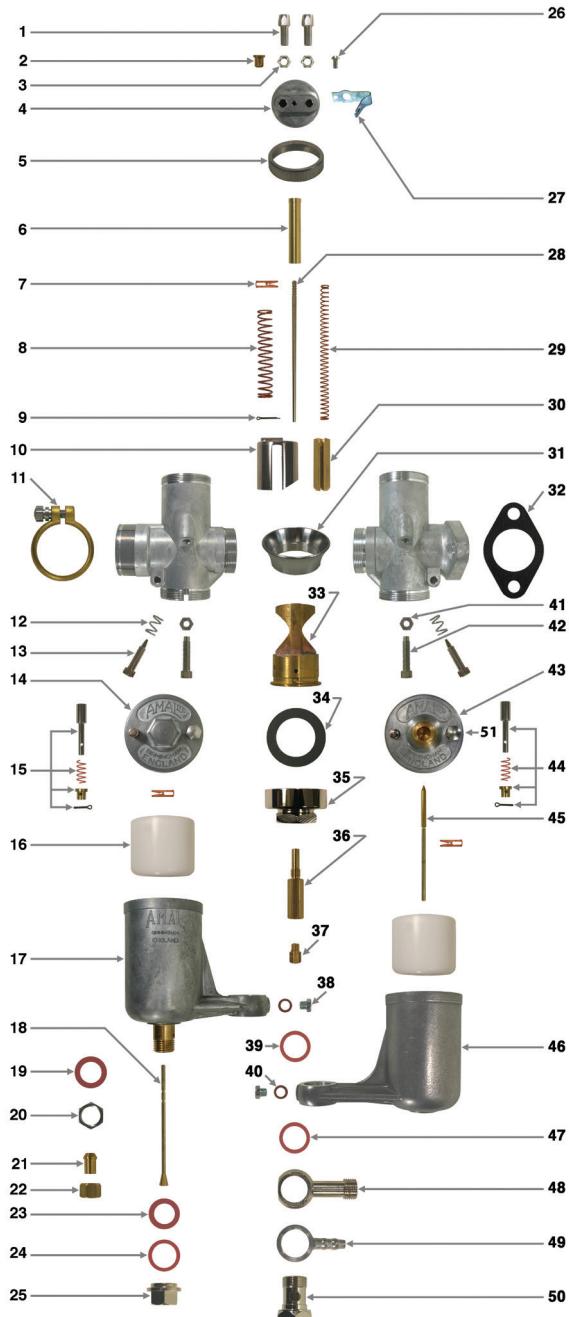

Needle & Clip Kit - RKC/526 - £10.20  
Kit Contains item numbers: 7 & 29

Throttle & Pilot Screw Kit - RKC/529 - £8.96  
Kit Contains item numbers: 12, 13, 42 & 43

Top Feed F/C Kit - RKC/527 - £25.24  
Kit Contains item numbers: 7, 16 & 45

Bottom Feed F/C Kit - RKC/525 - £24.00  
Kit Contains item numbers: 7, 16 & 18

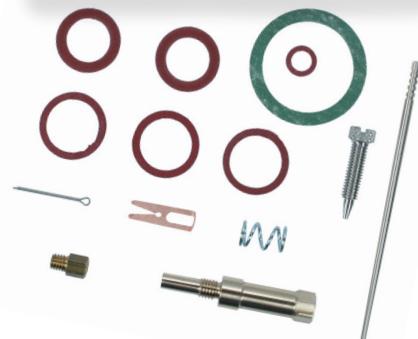

# AMAL Pre Monobloc® 289 Series - Exploded Image

## Type 29, 289 Repair Kit RKC/597 - £21.59

A complete repair kit for the types listed above including gaskets, throttle needle & clip, adjusting screw, main jet and needle jet.

Please specify jets required when ordering.

## 289 Pre-Monobloc Gasket & Washer Kit RKC/531 - £4.14

Essential for stripping down, cleaning and servicing your carburetter.

 47: Washer - 4/053 - £0.82  
*Contained in Gasket / Washer Kit - RKC/531 - £4.14*  
 48: Single Threaded Banjo - 14/035 - £9.59  
 49: Push On Banjo - 14/345 - £7.44  
 Double Push On Banjo - 14/419 - £11.94  
 Double 55 degree banjo - AMC102 - £18.84  
 50: Float Chamber Holding Bolt - 29/077 - £9.70  
 51: Float chamber cap locking screw - 14/021 - £3.72

## Associated Kits :

Gasket / Washer Kit - RKC/531 - £4.14  
 Kit Contains item numbers: 19, 23, 24 (x 2), 32, 34, 39 x 2 & 40

Tickler Kit Bottom Feed - RK276/1 - £4.12  
 Kit Contains item numbers: 15

Tickler Kit Top Feed - RKC/533 - £6.  
 Kit Contains item numbers: 44

Needle & Clip Kit - RKC/532 - £7.20  
 Kit Contains item numbers: 7 & 28

Throttle & Pilot Screw Kit - RKC/529 - £8.96  
 Kit Contains item numbers: 12, 13, 41 & 42

Top Feed F/C Kit - RKC/527 - £25.24  
 Kit Contains item numbers: 7, 16 & 45

Bottom Feed F/C Kit - RKC/525 - £24.00  
 Kit Contains item numbers: 7, 16 & 18

## AMAL TT Series Carburetter

TT  
Series:  
£390.00

# AMAL TT Series Carburetter - Information

This high performance carburetter was developed during the 1940's from the earlier pre war type 27. The mixing chamber body is either of the spigot or flange type mounting. The flange type has two options of a long or short delivery choke. The bore sizes can vary between 1 3/32" and 1 7/32". The throttle slide, with its centrally mounted needle and jet arrangement, was repeated on the later designs of concentric smoothbore carburetters. The enrichment air slide is mounted separately to the throttle slide bore and provides a simple enrichment for cold starting. The unit can be used in conjunction with either a separately mounted float chamber or with a rigid float chamber of either top or bottom feed.

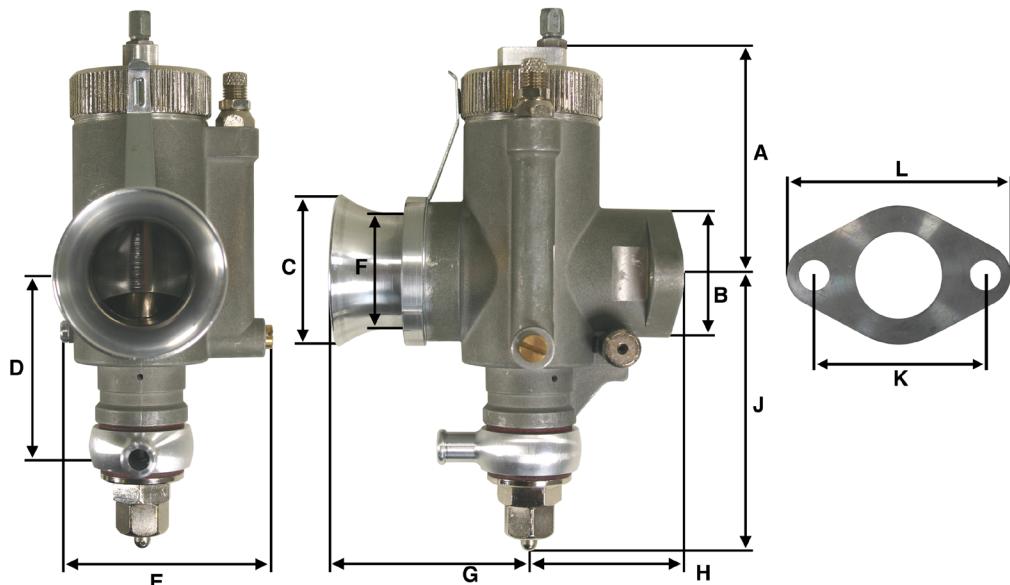

The flange type carburetter has recently been re-introduced by Burlen Fuel Systems Ltd in both the short and long delivery choke. Remote mounting float bowl applications can be satisfied using the 510 ("Matchbox") float chamber. A hybrid float chamber which utilises parts from the 276 range is also available. The 302 and 504 type remote float chambers are scheduled to return to production shortly. See page 124 for more details.

## TT Carburetter Standard Tuning Specification Identification -

## AMAL GP Series Carburetter

GP  
Series:  
£414.00

# AMAL GP Series Carburetter - Information

We currently produce the T3GP model in 1 3/8" and 1 1/2" bores sizes only. Originally designed in the very early 1950's, the original range covered sizes from 1" up to 1 1/2" bores in various body dimensions.

The GP design was the last in a series designed specifically for racing engines that started with the type 27 in the 1930's; was developed into the TT type with an enrichment (or emulsion) air slide located outside of the throttle slide bore; and then through to the RN (remote needle) type, where the throttle needle itself was located outside of the throttle bore. This feature of remote needle was then carried through to the GP design.

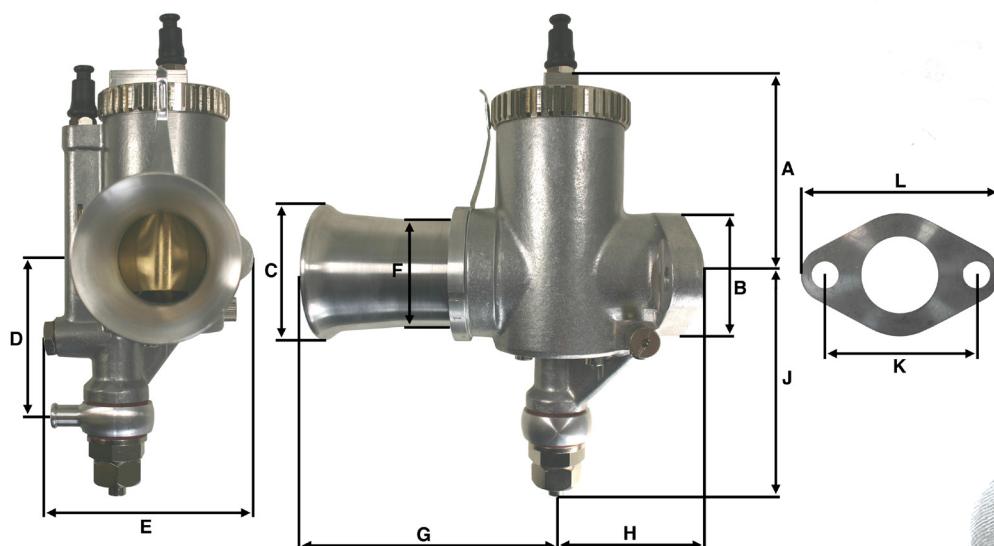

There was a further development of the range which became known as the GP2 type, where the pilot circuit air supply was arranged to come from filtered air.

The remote mounted ("matchbox") type 510 float chamber is available for use with the GP carburetter.

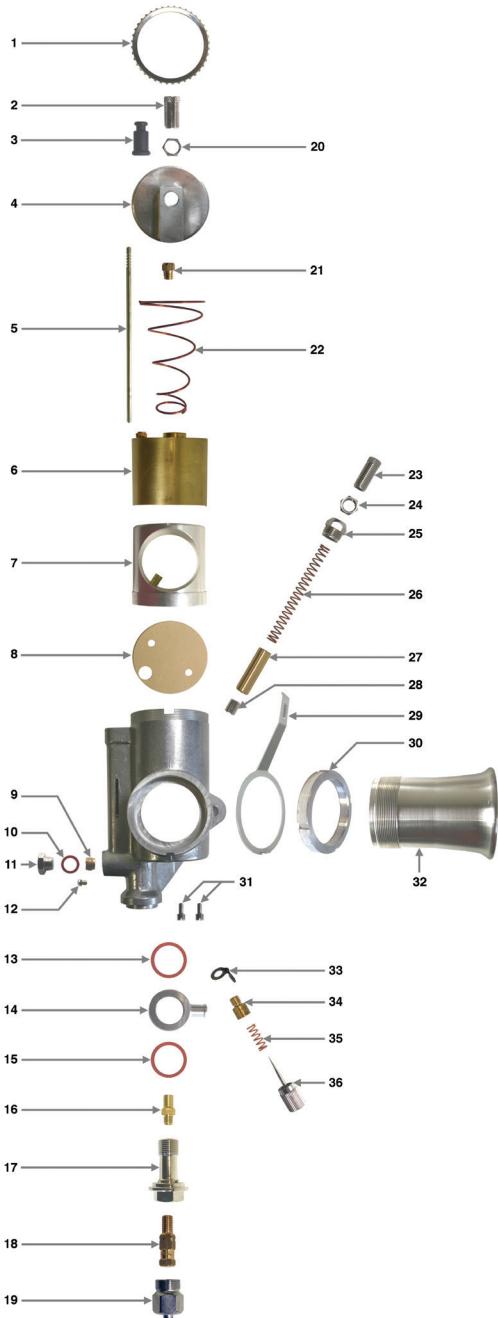

The 302 and 504 type remote float chambers are scheduled for return to production shortly.

# AMAL Monobloc® Series Carburetter

Now with  
StayUp®  
Float fitted  
as standard!

# AMAL Monobloc® Series Carburetter - Information

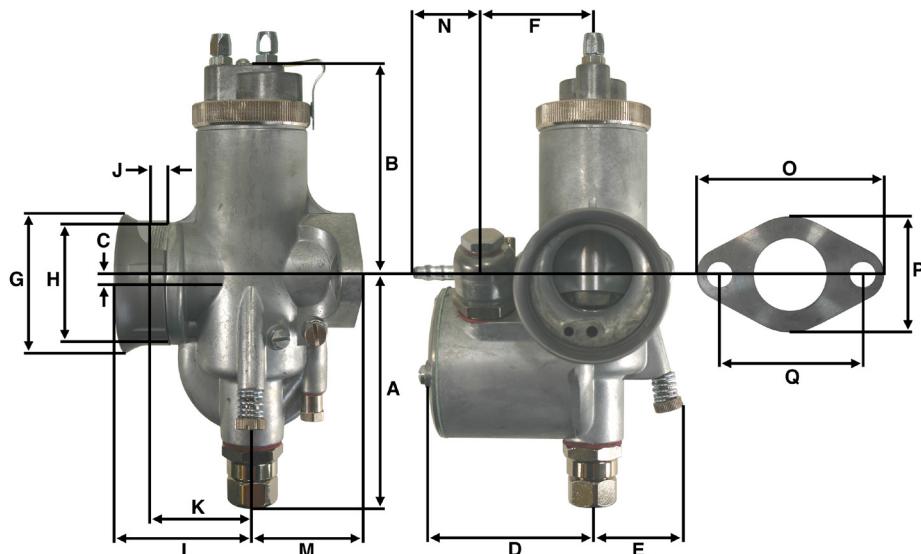

This range (generally known as the "Monobloc" type), was produced from 1954 in a range of sizes matching those of the AMAL "Standard" range in body types designated 363, 374, 375, 376 and 389. This carburetter type replaced the "Standard" series with the design intention of lowering production cost / complexity and reducing the major fault of the "Standard" series which was fuel surge due to the remote location of the float chamber. The monobloc design incorporates the float chamber into the carburetter body casting, although it is still located to one side of the main fuel metering circuitry. The bore sizes currently manufactured are 15/16", 1" and 1 1/16" diameter for the 376 body type and 1 1/8", 1 5/32" and 1 3/16" for the 389 type. See AMAL standard tune specifications below. For bike specific listings refer to the specification pages. Also available: 'Chopped' float bowl pairs in both 376 and 389 variants - See page 130.

## Monobloc Carburetter Standard Tuning Specification Identification -

AMAL Standard Tune Part Number	Bore Size
376/1516	15/16"
376/1616	1"
376/1716	1 1/16"
389/3632	1 1/8"

# AMAL Mk1 Concentric® Series Carburetter - Information

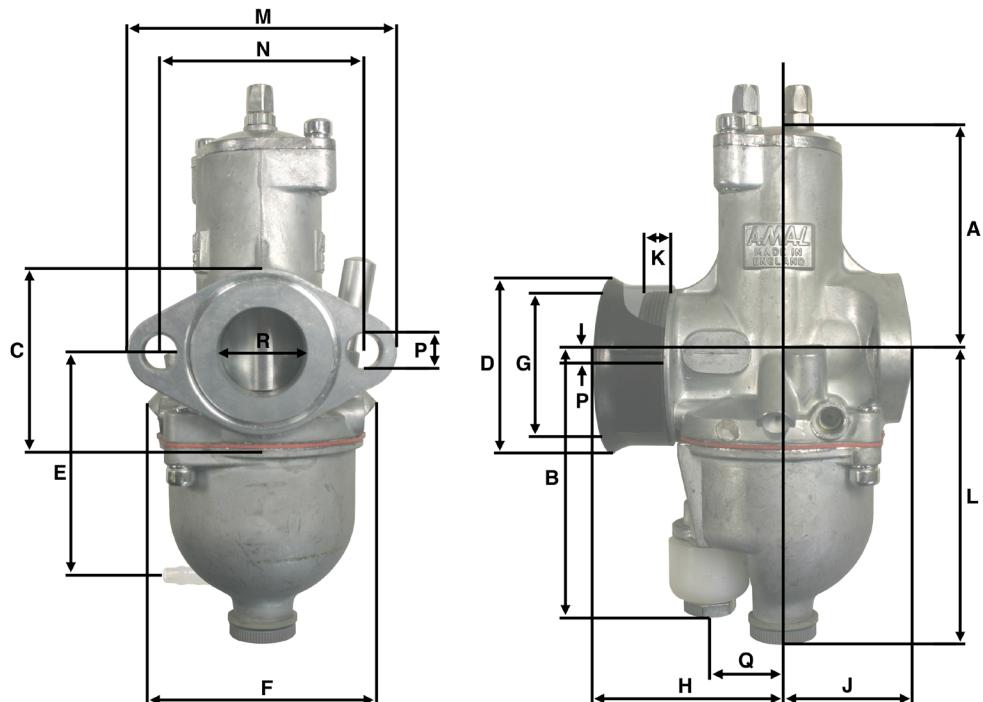

The Mark 1 series of carburetters was introduced in 1967 in two body sizes, (600 and 900 Series) offering bore sizes from 22mm through to 32mm.

The versatile design offered left and right hand positioning to improve access to adjustment, and became available in discreet 2-Stroke and 4-Stroke configurations. The concentric arrangement of the float bowl around the main jet removed the sensitivity to fuel surge of earlier carburetters while the design of the slide and the throat optimised air velocity through the carburetter.

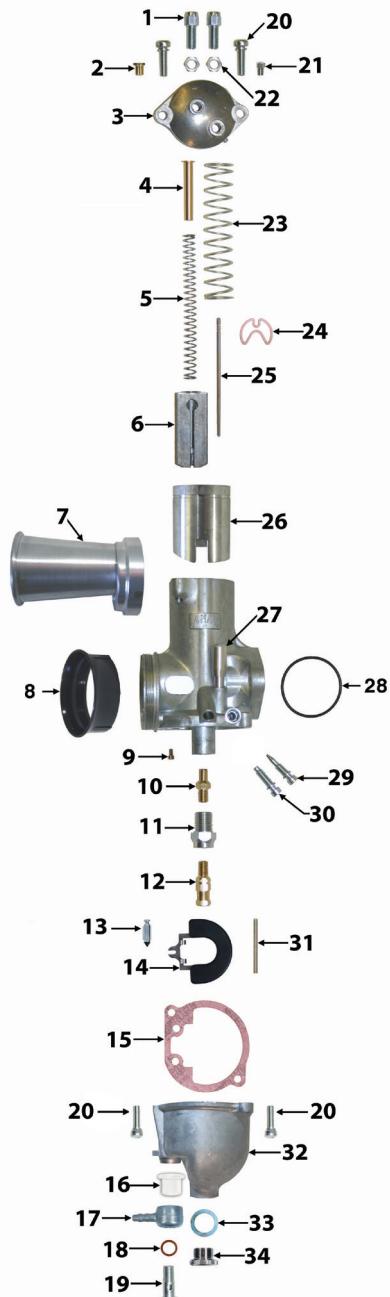

In addition to being universally adopted by the British motorcycle industry, it was widely fitted to Spanish motorcycles, and offered as a superior replacement to all previous AMAL carburetters, including the GP racing carburetter.

## Carburetter Dimensions -

	A	B	C	D	E	F	G	H	J	K	L	M	N	P	Q
600	2.41"	2.90"	1.63"	1.94"	2.43"	2.56"	1.63"	1.84"	1.30"	0.30"	3.13"	2.63"	2.00"	0.19"	0.78"
900	2.74"	3.02"	1.69"	2.13"	2.55"	2.75"	1.81"	1.84"	1.30"	0.30"	3.23"	2.63"	2.00"	0.19"	0.78"

# AMAL Mk2 Concentric® Series Carburetter - Information

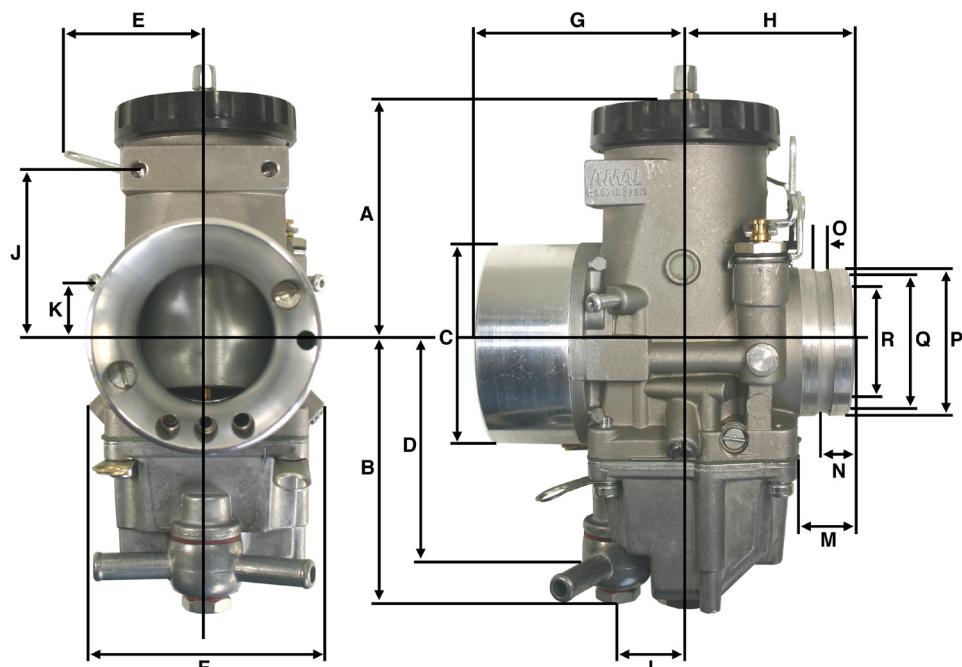

Introduced into production in 1974 and designed to replace the Mk 1 range, these carburetter types are constructed of aluminium, rather than zinc alloy, diecastings. They incorporate a separate cold starting circuitry, but otherwise have circuitry that is similar to earlier products.

The range is manufactured in three body sizes (2000, 2600 & 2900) and within these body types, bore sizes from 22 mm to 40 mm. Within the 2000 type body types, there is a "smoothbore" (i.e. similar arrangement to the 276, 376 and GP) arrangement with a "jet block" allowing a smooth airflow through the carburetter.

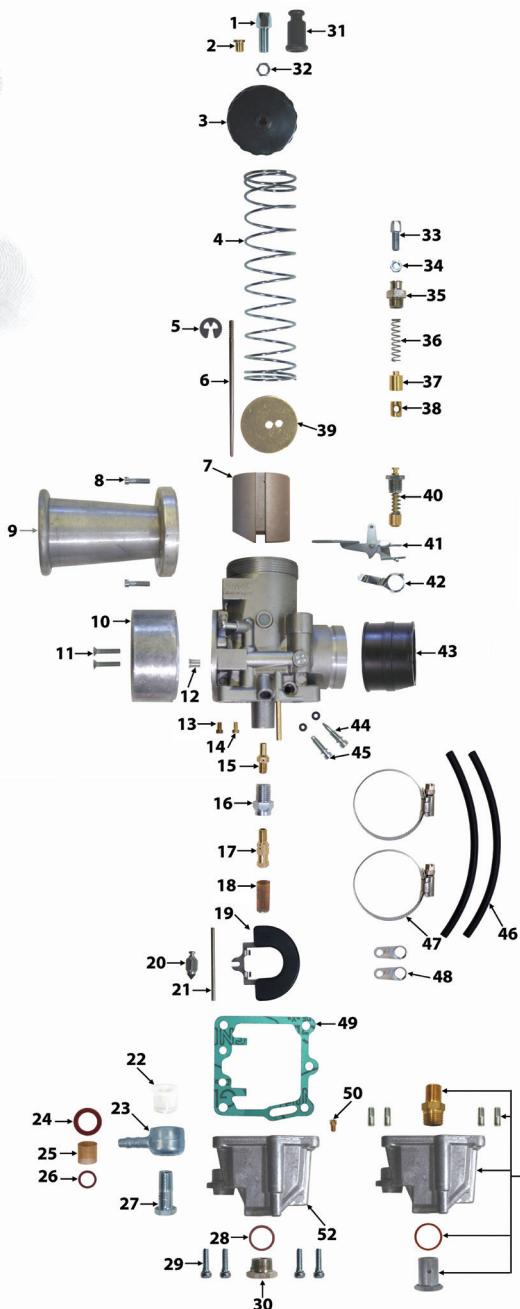

The smoothbore arrangement is popular for racing applications.

## Carburetter Dimensions -

	A	B	C	D	E	F	G	H	J	K	L	M	N	O	P	Q	R
2000	72mm	82mm	62mm	69mm	40mm	75.5mm	58.5mm	49.5mm	48mm	15mm	22.5mm	15mm	8mm	4mm	43mm	41mm	36, 38 & 40mm
2600	60mm	75mm	52mm	62mm	40mm	66mm	53.5mm	49.5mm	33mm	19.5mm	22.5mm	15mm	10mm	4mm	35mm	33mm	22, 24 & 27mm
2900	62mm	79.5mm	58mm	66.5mm	40mm	72.5mm	56mm	49.5mm	38mm	15mm	22.5mm	15mm	8mm	4mm	40mm	38mm	28, 30, 32 & 34mm

# AMAL Mk2 Smoothbore Series - Exploded Image

## Mk2 Major StayUp® Repair Kits

A complete repair kit for Smoothbore series carburetters including a StayUp® float. Other parts included are a needle valve, gaskets/seals, fuel filter, needle and clip, pilot air screw and your choice of main jet, pilot jet and needle jet. - Please specify jets when ordering.

RKC/581 - Smoothbore  
2 stroke - £37.80  
RKC/582 - Smoothbore  
4 stroke - £37.80

## Mk2 Smoothbore Major Repair Kits

As above but with standard plastic float.  
RKC/575 - Smoothbore  
2 stroke - £31.80  
RKC/576 - Smoothbore  
4 stroke - £31.80

## Mk2 Smoothbore Repair Kits

As above but without a float.  
RKC/569 - Smoothbore  
2 stroke - £23.99  
RKC/570 - 2600 - series  
4 stroke - £33.60

## Smoothbore Gasket & Washer Kit

2622/144 - £5.33

Essential for stripping down, cleaning and servicing your carburettor.

# AMAL Mk2 Smoothbore Series- Part Identification

**1:** Make, Model, Year of Manufacture and Engine Size (c.c.) - Details of listed vehicle.

**2: Carburetter Specification Number** - In most cases the carb specification number is stamped onto the carburetter.

**3: Internal Bore Size** - Internal bore size of choke diameter.

**4: Main Jet** - Main jet part number originally fitted as standard.

**5: Pilot Jet** - Pilot jet part number originally fitted as standard.

**6: Needle Jet** - Needle jet part number originally fitted as standard.

**7: Needle Position** - The position of the needle originally fitted as standard.

**8: Throttle Valve** - Throttle slide part number originally fitted as standard.

**9: Float Chamber** - Float Chamber originally fitted as standard (If applicable to carb)

**10 & 11: Repair and Major Kits** - For further details and for contents of these kits please refer to the carburetter explosion data pages.

**12: No Entry** - Where there is no entry in the listings, it indicates that the relevant information is either not available or not applicable to this vehicle/carburetter specification.

**13: \*** Where marked see notes at the bottom of the page

## The revolutionary float for Mk1, Mk1.5, Mk2 Concentric® and Monobloc AMAL carburetters - The StayUp Float!

The new StayUp® float is resistant to modern ethanol based fuels and has a military spec closed cell construction making it puncture proof. The ability to adjust the float arm on concentric versions allows for quick and easy minor alterations to float levels where required. The monobloc version is not adjustable, but a shim kit is available - see below.

The material specified was used by the S.U Carburetter Company for military installations in the 1980s, where a guaranteed fail safe operation was critical. Due to the close link between S.U and AMAL today (both owned by Burlen Fuel Systems Ltd), the secret behind the material has been released and upgraded for the manufacture of this float, making it virtually unsinkable.

### Mk1 & Mk2 StayUp® Float & Gasket Kit

Kit contains AMAL StayUp® Float and Mk1 & Mk2 float chamber gaskets. **RKC/550 - £12.00**

### Mk1 StayUp® Float & Needle Valve Kit

Mk1 Kit contains AMAL StayUp® Float, Mk1 float chamber gasket and Needle Valve. **RKC/551 - £15.00**

### Mk2 StayUp® Float & Needle Valve Kit

Mk 2 Kit contains AMAL StayUp® Float, Mk2 float chamber gasket and Needle Valve. **RKC/552 - £17.40**

### AMAL Monobloc StayUp® Float Kit

AMAL Monobloc StayUp® Float Kit - **RKC/391 - £13.19**

Non adjustable Monobloc version. For adjustments in float height use Shim kit **RKC/SHIM** (see page 128)

# Major StayUp® Repair Kits

## MK1 Concentric Major StayUp® Repair Kit

A complete repair kit including a StayUp® float. Other parts included: needle valve, gaskets, fuel filter, needle and clip, pilot air screw and your choice of main jet, pilot jet and needle jet.  
Please specify jet sizes when ordering.

RKC/555 - 600 series 2 stroke - £29.70  
RKC/561 - 600 series 4 stroke - £29.70

RKC/558 - 900 series 2 stroke - £29.70  
RKC/561 - 900 series 4 stroke - £29.70

## Major Repair Kit

As above but with standard plastic float.

RKC/554 - 600 series 2 stroke - £24.90  
RKC/560 - 600 series 4 stroke - £24.90

RKC/557 - 900 series 2 stroke - £24.90  
RKC/560 - 900 series 4 stroke - £24.90

## Repair Kit

As above but without float.

RKC/553 - 600 series 2 stroke - £18.60  
RKC/559 - 600 series 4 stroke - £18.60

RKC/556 - 900 series 2 stroke - £18.60  
RKC/559 - 900 series 4 stroke - £18.60

## Triumph Harris Bonneville Major Repair Kits

Mk1 1/2 Concentric Series Repair Kit -  
RKC/HARRIS/T140 - £37.20

Mk1 1/2 Concentric Series Major Repair Kit -  
RKC/HARRIS/T140M - £43.20

## MK1/2 Concentric Major StayUp® Repair Kit

A complete repair kit including a StayUp® float. Other parts included: needle valve, gaskets, fuel filter, needle and clip, pilot air screw and your choice of main jet, pilot jet and needle jet.  
Please specify jet sizes when ordering.

RKC/585 - 1600 series 2 stroke - £31.50  
RKC/593 - 1600 series 4 stroke - £31.50

RKC/588 - 1900 series 2 stroke - £31.50  
RKC/593 - 1900 series 4 stroke - £31.50

## Major Repair Kit

As above but with standard plastic float.

RKC/584 - 1600 series 2 stroke - £25.50  
RKC/592 - 1600 series 4 stroke - £25.50

RKC/587 - 1900 series 2 stroke - £25.50  
RKC/592 - 1900 series 4 stroke - £25.50

## Repair Kit

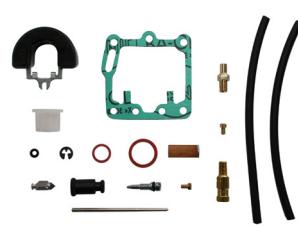

As above but without float.

RKC/583 - 1600 series 2 stroke - £17.99  
RKC/589 - 1600 series 4 stroke - £17.99

RKC/586 - 1900 series 2 stroke - £17.99  
RKC/589 - 1900 series 4 stroke - £17.99

## MK2 Concentric Major StayUp® Repair Kit

A complete repair kit including a StayUp® float. Other parts included: needle valve, gaskets, fuel filter, needle and clip, pilot air screw and your choice of main jet, pilot jet and needle jet.  
Please specify jet sizes when ordering.

RKC/580 - 2000 series 2 stroke - £37.80  
RKC/564 - 2000 series 4 stroke - £42.00

RKC/577 - 2600 series 2 stroke - £37.80  
RKC/578 - 2600 series 4 stroke - £37.80

RKC/579 - 2900 series 2 stroke - £37.80  
RKC/578 - 2900 series 4 stroke - £37.80  
RKC/T140EMS - Triumph T140E Kit - £37.80

## Major Repair Kit

As above but with standard plastic float.

RKC/574 - 2000 series 2 stroke - £31.80  
RKC/563 - 2000 series 4 stroke - £31.20

RKC/571 - 2600 series 2 stroke - £31.80  
RKC/572 - 2600 series 4 stroke - £31.80

RKC/573 - 2900 series 2 stroke - £31.80  
RKC/572 - 2900 series 4 stroke - £31.80  
RKC/T140EM - Triumph T140E Kit - £31.80

## Repair Kit

As above but without float.

RKC/568 - 2000 - series 2 stroke - £23.99  
RKC/562 - 2000 - series 4 stroke - £33.60

RKC/565 - 2600 - series 2 stroke - £23.99  
RKC/566 - 2600 - series 4 stroke - £23.99

RKC/567 - 2900 - series 2 stroke - £23.99  
RKC/566 - 2900 - series 4 stroke - £23.99  
RKC/T140E - Triumph T140E Kit - £23.99

# Major StayUp® Repair Kits - Continued

## Monobloc Major StayUp® Repair Kit

A complete repair kit including a StayUp® float. Other parts included: needle valve, gaskets, fuel filter, needle and clip, pilot air screw and your choice of main jet, pilot jet and needle jet.  
Please specify jet sizes when ordering.

RKC/375MS - 375 Type - £35.94    RKC/376MS - 376 type - £35.94    RKC/389MS - 389 type - £35.94

## Monobloc Major Repair Kit

As above but without float.

RKC/375 - 375 type - £26.34    RKC/376 - 376 type - £26.34    RKC/389 - 389 type - £26.34

## Pre - Monobloc Repair Kits

Repair kits containing needle and clip, air screw and spring, washers, throttle valve split pin and jets. Please specify jet sizes when ordering.

Type 4, 74 and 274 - RKC/594 - £20.39

Type 5, 75 and 275 - RKC/595 - £21.59

Type 6, 76 and 276 - RKC/596 - £20.39

Type 29 and 284 - RKC/597 - £21.59

## 274 & 275 Gasket Pack

RK4/5 - £4.14

Gasket pack containing flange gasket and washers, suitable for type 4, 74, 274, 5, 75, & 275 carburetters.

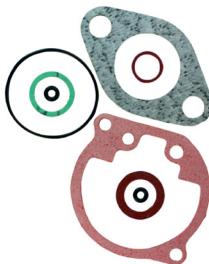

# AMAL Gasket & Washer Kits

Essential for stripping down, cleaning and servicing your carburetter!

GP Gasket & Washer Kit

RK3GP/1 - £2.65

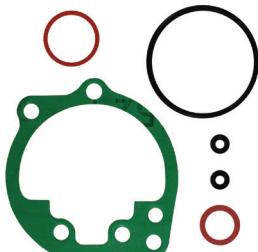

Mk I Gasket & Washer Kit

622/208 - £3.59

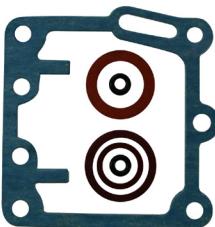

Mk I Service Kit

622/238 - £10.12

Mk 1/2 Gasket & Washer Kit

622/295 - £4.93

Mk 2 & Smoothbore Gasket & Washer Kit

2622/144 - £5.33

Monobloc Gasket & Washer Kit

If early type carb use  
thick 'O' Ring - AUB 657

375 Monobloc -  
RKC/498 - £4.14

376 Monobloc -  
RKC/499 - £4.14

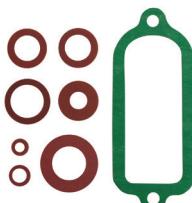

389 Monobloc -  
RKC/500 - £4.14

Pre-Monobloc Gasket & Washer Kit

276 Pre Monobloc -  
RK6/1 - £4.14

289 Pre Monobloc -  
RKC/531 - £4.14

"Matchbox" Float Bowl Gasket & Washer Kit

RK3GP/4 - £5.57

Suitable for use with 'Matchbox'  
remote Float Bowl.

TT Gasket & Washer Kit

RKTT/7 - £4.75

# Float Chambers & Fuelling Accessories

**Type 14 Remote Float Bowl**

Suitable for use with Monobloc, Pre-Monobloc and TT Carburetters.

**14/624 - £210.00**  
Alternative option available, lid pictured above  
**- 14/620 - £204.00**

**AMAL Monobloc Float Chamber Extension Kit**

**RKC 700 - £25.20**

This great new float chamber extension increases the available fuel capacity and comes complete with longer screws and a mounting gasket. Engraved with the genuine AMAL logo.

**Type 14 Float Chamber Assembly for TT carb**

*Pictured - 14/627*

New type 14 float chamber assembly for Amal TT carburetters. Available in three angle variations with a bottom feed nut and nipple connection or banjo fit. Features include a screw-on lid as used throughout the 276 carb range to allow cross over and greater interchangeability of parts.

**Part Numbers: All £162.00**

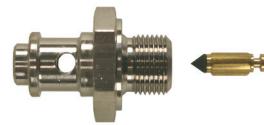

- 14/627** - 15 degrees, bottom feed, banjo fit
- 14/628** - 15 degrees, bottom feed, nut & nipple fit
- 14/629** - 7 degrees, bottom feed, banjo fit.
- 14/630** - 7 degrees, bottom feed, nut & nipple fit
- 14/631** - horizontal, bottom feed, banjo fit
- 14/632** - horizontal, bottom feed, nut & nipple fit

**"Matchbox" Remote Float Bowl**

**510/1 - £126.00**

Suitable for use with GP and TT series AMAL carburetters.

**Monobloc Needle Seating Kit**

**RKC/511 - £13.31**

**"Matchbox" Tickler Replacement Kit**

**RK3GP/3 - £3.01**

Suitable for use with 'Matchbox' remote Float Bowl. Contains Parts: 1034/073, 14/033, 14/189 & 510/023

**"Matchbox" Float Bowl Needle Seating Kit**

**RK3GP/2 - £26.63**

Suitable for use with 'Matchbox' remote Float Bowl. Contains Parts: 14/047, 510/0051 & 510/006

**Fuel level Washer Kit Monobloc Carburetters**

**RKC/SHIM - £3.54**

This kit comprises of 4 aluminium shim washers of 0.15mm, 0.25mm and two 0.5mm thicknesses. Replacing the fibre washer with a series of different combinations of these washers allows the user to vary the fuel level and thereby select their preferred setting.

# Mk 2 Concentric Carburetter Conversion Kit

**Mk 2 Concentric Carburetter Conversion Kit  
for BSA Gold Star 500cc 1956-1962 - 2038/GOLD - £156.00**

A kit to replace the standard 1 1/2" GP2 carburetter originally fitted to the 500cc BSA Gold Star with a Mk 2 Concentric carburetter, giving easier starting and smoother running at small to medium throttle openings.

The carburetter is supplied with a range of alternative Main, Pilot and Needle Jets to ease fine tuning of the carburetter to individual engines and specifications. A cable operated choke is fitted as standard although a lever choke can be fitted on request.

#### ***The kit contains:***

1. 38mm Amal Mark 2 Concentric carburetter complete with rubber intake adapter.
2. Stub flange adapter to fit 65mm stud centres complete with flange gasket.
3. Jet Kit comprising; Main Jets: 300, 340, 350, 360, 370 (320 fitted as standard)  
Pilot Jet: 30 (25 fitted as standard)  
Needle Jet: 107 (106 fitted as standard)  
Throttle Slide: 3
4. Amal Mk 2 Carburetter Fitting and Tuning Leaflet

## Genuine AMAL Twist Grips

Genuine AMAL Double Throttle  
Twist Grip

313/2NG - £47.99

Genuine AMAL Type 16 Single  
Cable Twist Grip

16/417 - £59.99

### 313/2NG The Type 313 Double Rotor Positive Stop Twist Grip - 313/2NG

Previously manufactured from 1949 to 1967. Originally designed to meet the requirements of machines fitted with twin carburettors and supplied with optional positive stop for racing or sports machines, the Twist Grip is a faithful reproduction of the original, manufactured to a high standard using the original AMAL drawings to ensure accuracy. The correct Imperial sizes of threads and bolts ensure that the polished aluminium twist grip is ready for installation and should not require any additional fettling.

### The Type 16 "Standard" Touring twist grip - 16/417

The popular choice fitted by leading British motorcycle manufacturers from the 1920s to the 1960s.

The Twist Grip, which has a high quality polished aluminium finish rather than the original chromed Mazak or Brass, is manufactured to a high standard using the original AMAL drawings to ensure accuracy. The correct Imperial sizes of threads and bolts ensure that the twist grip is ready for installation and should not require any additional fettling.

## Genuine AMAL Handlebar Grips

Pair of genuine Amal Black  
Handlebar Grips

RKC/590 - Black - £17.99

Pair of genuine Amal Silver Grey  
Handlebar Grips

RKC/591 - Silver Grey - £23.99

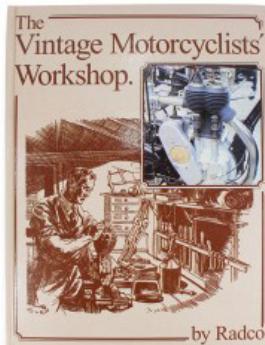

**AMAL**  
"Look out for the  
genuine AMAL logo on  
these Handlebar grips!"

Genuine Amal Type 366 Handlebar Grips for 7/8" handlebars.

The grips are 4.8 inches long to fit a 4.5 inch rotor length, and can be supplied in Black or Silver Grey pairs.

Each grip is individually marked with its part number and the genuine 'Amal' scriptive text.

# Motorcycle Manuals, Twist Grips & Control Levers

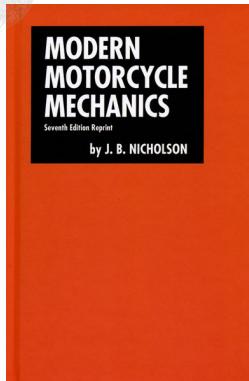

## The Vintage Motorcycle Workshop Manual

ALT 9991 - £25.00

This hefty reference book last revised in 1974 remains an indispensable source of information for anyone who has ever owned or owns a motorcycle, regardless of make or model.

Author J.B. (Bernie) Nicholson of Saskatoon, Saskatchewan covered all aspects of motorcycle repair and maintenance. For anyone interested in what makes that old bike tick the seventh edition of Modern Motorcycle Mechanics is required reading.

## Modern Motorcycle Mechanics

ALT 9979 - £44.95

Jam-packed with Nicholson's clear and concise service and maintenance information and ever-handy clearance and settings charts for several different makes and models the Seventh Edition Reprint of Modern Motorcycle Mechanics is 766 pages – just like the original. The book covers everything from setting the timing on a single-cylinder Lucas magneto to rebuilding the engine of a Harley-Davidson 45".

## Control Twist Grip - 327 Type

17/327 - £16.63

For 7/8" dia. RH Bars only. Length of grip 4 3/4". Suitable for touring, racing and sports machines. Cable movement of between 1 1/8" and 1 1/4" through 270 degrees.

## Control Twist Grip - 364/TG Type

364/TG - £38.70

For 7/8" dia. RH Bars only. Length of grip 4 3/4". Suitable for touring, racing and sports machines. Cable movement of between 1 1/8" and 1 1/4" through 90 degrees.

## Chrome 2 Way Cable Junction Box

244/104-1 - £34.78

This precision made plated brass 2 way cable junction box has been made to the original AMAL design. Hard wearing and easy to fit, this smooth operating junction box is a significant improvement to the existing design.

## Inline Fuel Filter

244/1729 - £7.80

Inline AMAL Fuel Filter embossed with genuine AMAL Logo

## Control Lever - Short

372/4 - £19.03

This Control can be supplied with clamp fitting as illustrated and to suit 3/4", 7/8" and 1" diameter bars, or with stud through bar or similar arrangement.

# Fuel Hose, Filters & Connectors

**Black Flexible Fuel Hose**

Resistant to all modern fuels. Sold by the foot (300mm approx) or ten metre rolls

1/4" I/D (6mm)  
**ABF330INCH - £0.25** (per inch)

5/16" I/D (8mm)  
**ABF331INCH - £0.25** (per inch)

**ABF332INCH - £0.25** (per inch)

**High Quality Braided Fuel Hose**

Resistant to all modern fuels. Sold by the 1" (25mm approx)

1/4" (6mm) - **M8121INCH - £0.34** (per inch)

5/16" (8mm) - **M8120INCH - £0.34** (per inch)

**Braided Fuel Hose Kit**  
(Includes filter, rubber end covers and clips)

19" Long Hose each end. Total length of unit 43". (Different lengths can be supplied to order)

1/4" (6mm) Unions - **PRO 804B - £20.29**

5/16" (8mm) Unions - **PRO 805B - £20.29**

Glass Inline Fuel Filter Push on connections  
1/4" (6mm) Unions. **PRO 804 - £14.72**  
5/16" (8mm) Unions. **PRO 805 - £11.88**

**1/4" (6mm) Flow Stem**

**ABF252 - £2.42**

**5/16" (8mm) Flow Stem**

**ABF253 - £2.42**

**Flow Stem Nut - 1/4 BSP**

Plated Steel. **AUC 1094 - £1.15**

**Steel Plated T Piece**

1/4" (6mm) - **MTP 001 - £3.36**

5/16" (8mm) - **MTP 002 - £3.72**

**Elbow Kit**

**WZX 991 - £7.49**

90 Elbow Connection, Nut and Olive for bottom feed float chambers. Also requires parts AUC 1094 above and either flow stem

**Monobloc Main Jet Cover Nut**

**376/075A - £2.80**

Original size Monobloc Main Jet Cover Nut. Can be retro-fitted for a more original appearance.

**5mm Fuel Line Connector**

Plated Steel. **J0303 - £1.70**

**1/4" (6mm) Fuel Line Connector**

Plated Steel. **J0404 - £2.38**

**5/16" - 1/4" (8mm-6mm)  
Fuel Line Connector**

Plated Steel. **J0604 - £1.74**

# AMAL Banjos and Ram Pipes

**Banjo - Single Metal**

376/097M - £4.52

To suit 1/4" (6mm) fuel pipe. Suitable for Mk1, Mk2 & Monobloc carburetters.

**Banjo - Single Shouldered**

376/141 - £17.88

To suit 1/4" (6mm) fuel pipe. For use with Monobloc carburettor with cut-down float bowl only.

**Banjo - Double  
150 Degrees Metal**

376/139 - £5.44

To suit 5/16" (8mm) fuel pipe. Suitable for Mk1, Mk2 & Monobloc carburetters.

**Banjo - Double  
180 Degrees Metal**

376/419 - £5.70

To suit 1/4" (6mm) fuel pipe. Suitable for Mk1, Mk2 & Monobloc carburetters.

**Banjo - Double 55 Degree Metal**

376/410 - £5.70

To suit 5/16" (8mm) fuel pipe. Suitable for Mk1, Mk2 & Monobloc carburetters.

**Banjo - Threaded - Metal**

14/249 - £14.34

1/4" (6mm) BSP Thread. Suitable for GP & TT carburetters.

**Banjo - Push On - Metal**

14/218 - £15.00

To suit 3/8" fuel pipe. Suitable for GP & TT carburetters.

**Banjo - Double  
90 Degrees Push On**

14/250 - £17.94

To suit 3/8" fuel pipe. Suitable for GP & TT carburetters. Zinc casting.

**Banjo - Single Push On**

14/345 - £7.46

To suit 6mm fuel pipe. Suitable for 76, 276 & 289 Pre Monobloc carburetters.

**Banjo - Double  
180 Degrees Push On**

14/419 - £11.94

To suit 1/4" fuel pipe. Suitable for Pre Monobloc carburetters.

**Long Ram Pipe - 60mm**

900LONG - £27.95

60mm Long Ram Pipe for Mk1 900 Series. Screw on. Aluminium with gauze.

**Short Ram Pipe with gauze**

900SHORT - MK1 900 series carbs - £24.64

376SHORT - MK1 600 series & Monobloc 376 - £24.64

# Velocity Stack Kits, Rubber Adaptors & Spacers

Mk1 Concentric Carburetter Velocity Stack

To suit Mk1 Carburetters - Aluminium

600 Series - 622/192 - £22.90

900 Series - 928/076 - £27.00

Mk2 Concentric Carburetter Velocity Stack

To suit Mk2 Carburetters - Aluminium

2000 Series - 2036/126 - £33.90

2600 Series - 2622/126 - £29.00

2900 Series - 2928/126 - £35.94

GP Velocity Stack Kit - 1 3/8" & 1 1/2"

To suit GP Carburetters - Aluminium

1 3/8" - RK3GP/6/1375 - £38.25

1 1/2" - RK3GP/6/150 - £38.25

TT Velocity Stack Kit

RKTT/5 - £36.42

To suit TT Carburetters - Aluminium

Rubber Adaptors

To fit from the outlet of carburetter to the inlet of the engine manifold.

Mk 2 2000 Series - Alcohol - 2036/119 - £5.29

Mk 2 2000 Series - Standard - 2036/123 - £7.80

Mk 2 2600 Series - Alcohol - 2622/157 - £4.22

Mk 2 2600 Series - Standard - 2622/123 - £6.12

Mk 2 2900 Series - Alcohol - 2928/119 - £4.78

Mk 2 2900 Series - Standard - 2928/123 - £4.46

Phenolic Spacer

Phenolic carburetter mounting spacer blocks used to reduce heat transfer to the carburetter body. 2" stud spacing for Mk1, Monobloc and Pre-Monobloc.

ABF 896 - 20mm - £5.40 ABF 895 - 22mm - £5.40

ABF 894 - 24mm - £5.40 ABF 812 - 26mm - £5.40

# Phosphor Bronze Throttle Valves / Gauze Intake Assembly

Phosphor Bronze Throttle Valves

6/052PB (Size 3-5) - Please ask for pricing  
29/062PB (Size 3-4) - Please ask for pricing

Upgrades Chrome plated Brass Throttle Valves to Phosphor Bronze. This material provides a hard and wear resisting material combined with high strength and a good corrosion resistance.

274, 275 & 276 Gauze Intake Assembly

274 & 275 Type (Adaptor Included) - RKC/611 - £34.79  
276 Type - 30/339 - £29.99 & 276 Adaptor - 30/129 - £4.80

First introduced in 1940 for the then new 276 series carburettor, this zinc alloy air filter with a 3 disc gauze element has been re-introduced using the original drawings to ensure accuracy. A screw in adaptor is supplied in this kit to enable the filter to be fitted to type 4, 74, 274, 5, 75 & 275 series carburettors with threaded air intakes.

Dimensions: 2 7/8" diameter body, 1 3/32"  
Overall length with 1 1/4" x 24 thread.

## Fuel Pumps & Ball Joint Assemblies

2 Stroke AMAL Fuel Pump

6mm (1/4") connections  
511/5 - £23.42

6mm (1/4") connections without fixing lugs.  
511/1 - £23.42

AMAL Fuel Pump

120/1456 - £152.48

6L3B-8L3B To fit Gardner Diesel Engines

AMAL Universal Ball Joint Assembly

Micrometer adjustment for wear or play. Instantly detachable without tools. Self locking. Brass body, steel headed pin.

81/111 - £11.99 Threads: 3/16" on ball joint

& 1/4" BSF on swivel pin

81/102 - £12.49 Threads: 2BA on ball joint &

swivel pin

# Amal Mk 1 Premier Concentric® Carburetter

## "Why Premier?"

Ethanol resistant, puncture proof StayUp® Float

Precision manufactured forged alloy Hard Anodised Throttle Slide

New precision engineered Idle Circuit

The 600 & 900 Series AMAL Mk1 carburetter for four stroke applications has been re-designed to improve performance and wear.

The new carburetter incorporates changes in materials which reduces the rate of slide and body wear and a precision engineered idle circuit which improves the pick up performance from idle and reduces fuel consumption. The precision manufactured forged alloy, hard anodised throttle slide has a low friction surface for smoother operation and greater wear resistance. The material of the carburetter body has a "passivated" finish which resists corrosion. The ethanol resistant, puncture proof Stayup® float and Viton tipped alloy needle valve improve control of the fuel flow.

A new easily removable pilot jet provides precise metering of the idle circuit. The jet, which is located in the opposite position to the Pilot Air Screw, is manufactured to tight tolerances allowing it to be replaced with minimum disruption to the adjustment of the carburetter. Initially the size of the jet replicates the 622/107 pilot bush. Other sizes will be available shortly. Removal of the jet allows access to the rest of the idle circuit for servicing.

The new jet cannot be fitted to earlier versions of the Mk1 Concentric®. The new carburetter is available in 22, 24, 26, 28, 30, & 32mm bore sizes and with right or left hand pilot adjustment.

The carburetters can be ordered by adding "Prem" to an existing specification number.

Notes on my carb spec...

Parts list - to buy!

Where do i get my genuine spares from? ...  
AMAL of course!

The AMAL reference catalogue contains details for all AMAL applications from 1940 onwards. A pre war supplement is available separately.

A vintage-style advertisement for the AMAL MK1 Concentric Carburetter. It features a yellow sticky note at the top that reads "Enjoy Premier Performance!". The main text includes the AMAL 'PREMIER' logo and the product name "MK1 CONCENTRIC CARBURETTER". A list of six benefits is provided, each preceded by a star: PRECISION, SUPERIOR, GENUINE AMAL, EXCELLENT, IMPROVED, and STAY-UP FLOAT. Below the list, a note states: "All our AMAL carburetters come with a two year guarantee. Most original specifications are available, please ask for details." To the right of the text is a detailed illustration of the carburetter, which is a silver-colored metal component with various ports and a float chamber.
